

The web site is designed to disseminate garden club information throughout the Deep South.

Program, Contact, and Project information can be corrected and updated in minutes without having to create and mail multiple copies of materials to each state and club.

Chairman can place the latest helpful tips online for everyone to share.

States can list their ongoing classes and events open to the public for all members and visiting guests to view and attend.

One of the best things about meeting together is the opportunity it provides for us to share the ideas and successes highlighted in each report with other clubs enabling them to learn and profit from this information. While not everyone can attend the convention, we strive to pass on what is learned. The reports that we have received from the state presidents and chairman will be posted online at the close of this meeting.

We strive to keep the site updated with the most accurate information available.

It is the responsibility of state presidents to make certain the information we have on their state is accurate and up to date or to assign a liaison for that duty.

We have recently added a data based mailing program, which will enable us to send a mass email to all members without having to keep a personal address book updated.

We encourage you to sign up to be on that list - the link to do that is in the navigation bar on the web site.

It has been a pleasure serving this administration and we sincerely hope that your state and your clubs will benefit from our endeavors.

M.E. DePalma, Webmaster
Jan Sillik, Internet Chairman
